

The New York World recently contained an assault on Postmaster General Wanamaker because he imported cloaks from Berlin which were made by women in that city at starvation wages. The World draws a pathetic picture of the condition of these wretched women, and calls them "Wanamaker's Berliner White Slaves." There never was a more senseless charge brought against a man than this. Mr. Wanamaker would be an ass if he did not buy his cloaks in the cheapest market. If he failed to do so some one else would, and as a consequence he would not be able to sell cloaks in competition. It is obvious if a cloak is made at starvation wages in Germany can be imported into the United States and sold in Philadelphia at \$13, an American-made cloak of a similar character, costing \$15 to produce with decently remunerated labor, would have no show against it. The difference between Wanamaker, who is a protectionist, and the editor of the World, who is a free trader, is simply this: Mr. Wanamaker advocates a high protective tariff which will prevent American women being reduced to the pitiful condition of the Berliner white slaves, while the World editor advocates the free admission of the products of Berliner white slave labor in order to force American women to work as cheaply as their wretched sisters abroad. That is the size of it.

The silk manufacturers of New Jersey are taking steps to establish an industrial training school which will be open to all young men desiring to become expert weavers, dyers, finishers and designers. It is intended to make the industry in this country independent of foreign designs, to improve the quality of the product and widen the market. Those familiar with the industrial schools of Ostfeld, Germany, have done for the textile industries of that community can best forecast the advantages likely to result from this movement.

The Atlanta Constitution says that if President Harrison will attend the coming exposition at Atlanta he will be carried there in a train of cars manufactured wholly in the South, and under the charge of a conductor clad entirely in Southern made garments. This proposition is eminently fit to be made by the South to the first Republican President elected on an issue squarely made in favor of the policy which has rendered such a proposition possible.

Sir John Macdonald does not think President Harrison's message on Behring Sea Fisheries will complicate international matters. England does not concede Russia's claim and that of the United States that Behring Sea is a closed sea. The protection of the seal is desired, and the proclamation will tend to secure that. The Behring Sea question is where it was last year.

Eight tramps were publicly flogged on their bare backs in Fairbury, Neb., last Saturday afternoon for their impudent and boisterous conduct. The flogging was done by a citizens' committee, who led the pedestrians to the edge of the city and advised them to keep without its limits in future.

Soon after the adjournment of the Senate, Senator John Sherman and family will make a trip to Europe. The Senator does not go in any official capacity, but simply for rest and recreation.

Minister to Austria Colonel Fred Grant and Minister to Spain Palmer were at the State Department Monday and were sworn in. They leave about the last of April for their posts.

## BACK TO THEIR OLD BILLETS.

Postmaster General Wanamaker Institutes Several Division Superintendents of the Railway Mail Service. Removed for Being Republicans.

WASHINGTON, March 26.—Postmaster General Wanamaker to-day, acting upon the recommendation of Superintendent Bell, of the Railway Mail Service, appointed the following-named Division Superintendents of the Railway Mail Service: W. W. Bigelow, First Division, Boston, Mass., Vice G. E. Davis, resigned; R. C. Jackson, Second Division, New York City, Vice W. F. Doolittle, resigned; C. M. Vickery, Third Division, Washington, D. C., Eugene Carrington, resigned; L. M. Terrill, Fourth Division, Atlanta, Ga., Vice J. M. Turner, resigned; G. W. Pepper, Ninth Division, Cleveland, Ohio, Vice F. B. Dodge, resigned. With the exception of Pepper, the appointees named above were displaced during the last administration—Bigelow in 1885, Jackson and Vickery in 1888 and Terrill in 1886. Pepper is a clerk in charge of the New York and Chicago Railway postoffice.

General Superintendent Bell, in speaking of these changes, said they were made solely in the interest of good service. The men who have been reinstated have been for many years identified with the Railway Mail Service, and its efficiency is largely due to their ability and energy. The resignation of the outgoing Superintendents was requested, with the assurance that there was nothing known to the Department prejudicial to their good name.

## The Expected Oklahoma Proclamation.

WASHINGTON, March 27.—The President's proclamation opening Oklahoma land for settlement on the 2d of April next was issued to-day.

The proclamation, after setting forth the terms of the treaties of the cession of these lands by the Indians to the Government and the acts of Congress relative to opening them to homestead entries, described these acts minutely by metes and bounds, reserved two acres for Government use, and then formerly declares that under these conditions these lands will be open to homestead entry at noon on April 2d next. All persons are warned that under the terms of the act of Congress, any person who shall occupy any of said lands before the time mentioned are forever barred from making entry thereon, and the officers of the United States are requested to strictly enforce this act.

The Commissioners of the General Land Office have issued an order establishing two land offices in Oklahoma Territory. The land office for the Western District to be located at Kingfisher Station, and for the Eastern District at Guthrie.

## Believe in Santa Clara.

POMONA, March 24.—The fever for gold mining in Lower California has been revived in this locality by the return of D. H. Cummings to his home at Cuacamonga from the Santa Clara region. He has been there four weeks and has come home to sell or mortgage his large landed property near Cuacamonga in order to return with funds for operating with others in a quartz ledge twenty miles south of the original discovery of placer mines. Cummings has been a gold miner for twenty-three years, and he declares that some rich quartz mines have been found in Lower California, where the placers are not so poor as people make out. He says that fully 2000 people who went to the mines knew absolutely nothing about gold ore, and they are fast being starved out. He has had an offer of \$14,000 for his ranch, and he will return to the mines with that as soon as possible.

## Quay and Wanamaker.

WASHINGTON, March 26.—There is trouble brewing between Senator Quay and the Postmaster General. Wanamaker has assumed one of the Senator's prized prerogatives in offering John Field the Postmastership of Philadelphia. Quay had intended the place for Mr. Leeds, and when he heard of Mr. Wanamaker's move he was wrothy. Quay insists that Wanamaker has no more right to appoint a Postmaster at Philadelphia without consulting him, than he would have to appoint a Postmaster at Chicago, without talking the matter over with Senator Farwell.

## Sensible Advice to Gold-Hunters.

SAN DIEGO, Cal., March 26.—General Luise Torres, Governor of Lower California, has sent the following message to Senor Valdespino, Mexican Consul here: "Please publish through the press that the richness of the Santa Clara placers has been much exaggerated. None but practical miners find gold. Possibly new discoveries may be made, but to date the placers found do not justify the excitement that has been caused."

The Rhode Island Legislature balloted Tuesday for a successor to Senator Chace, resigned, without result.

Theodore Steinway, of the piano firm of Steinway & Sons, New York, died Tuesday at Berlin.

## The Death Warrant.

On Saturday evening last Judge Bigelow signed the death warrant commanding the Sheriff of Elko county to execute the sentence of death on Josiah and Elizabeth Potts on Friday, May 17, 1889, between the hours of 9 o'clock A. M. and 3 o'clock P. M. of said day.

"California Dunder" is the jubilant headline of an envious Eastern paper, referring to our skillful massing of a Cabinet place. Neighbor, don't laugh. California gets more pleasure out of her glorious climate than every place in the Cabinet could give. When she gets ready she will aim at the Presidency and get it and dump all of you.—Alta.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dyspepsia and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Tab. 21-aw-1v

## Coal. Coal. Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Nasbys, or of Phil Alliger, the drayman.

## WHAT ON EARTH?

Is the reason people will not, can not or do not, see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalled satisfaction for purifying the blood as DRUGGS' BLOOD PURIFIER, AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

The Eureka Sentinel says: A considerable amount of ore is again accumulating in that district, the shipment of which to the furnaces is hindered by the Government land suits.

The Carson Tribune says among the candidates for the Republican nomination for Governor two years hence are C. C. Stevenson, T. B. Rickey, and Senators Evan Williams, H. A. Comins and W. E. Sharpe.

Judge Bigelow went to Carson yesterday to hear the argument in the Dayton mining case tried a couple of weeks ago. R. H. Lindsey, who represents one side of the case, also went to the capital.

The profits of the Satro Tunnel Company since 1883 foot up about three-fourths of a million. The receipts for royalty during January, 1889, were \$22,200. The daily receipts for royalty on ore now being extracted foot up about \$800.

Willis Brown, business manager for Heines' London Musicians and Grand Concert Co., paid the JOURNAL office a visit yesterday. Mr. Brown is here in the interests of the company he represents, and will probably give a concert here next week.

J. N. Jaques is putting a stock of tin and hardware into the store on the corner of Second and Sierra streets, formerly occupied by J. K. Everett. Mr. Jaques will also be prepared to do all kinds of plumbing, and his work is too well known to need any remarks in his behalf.

**FROZEN MILK.**  
The Agricultural Society of France has been shown by M. Guerin that fresh milk may be easily transported to the most distant places in a frozen state, the freshness being retained for an indefinite period. When thawed, though days and weeks after freezing, the milk is said to be equal to new for cooking, yield of cream, production of butter and cheese and in all other respects.

**A Miner's Boon.**  
A special to the Philadelphia Ledger contains an account of the operations of the Edison concentrator, which concentrates the real ore dug from the mines, ridding it by mechanical means of all dirt and earthy matter that interferes with smelting. It will make possible the profitable working of lower-grade ore.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

### RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
